

Summer Research Undergraduates Wanted

- Want to do hands-on work in nanotechnology?
- Want to gain a competitive advantage?
- Want to be mentored by top research faculty?
- Want to use state-of-the-art equipment and facilities?
- Want to interact with a national community of peers?
- Want to go to graduate school?

The Center for Nanoscale Chemical-Electrical-Mechanical Manufacturing Systems Center at the University of Illinois at Urbana-Champaign invites you to apply for its annual Research Experience for Undergraduates (REU) program to be held May 22 – July 28, 2006.

Program Description

REU participants engage in full-time research on a nanotechnology-related topic. Students meet for weekly lunches and group meetings, where they have opportunities to share their progress and to gain a broad overview of a wide array of scientific projects. Each participant writes a research paper and presents their findings at a closing seminar.

Eligibility

You must meet the following qualifications to be eligible for the REU program:

- U.S. citizen or permanent resident
- Undergraduate at a United States institution
- Returning to an undergraduate program in the fall
- Majoring in science or engineering

Applicants are selected based on academic achievements and scientific interests. Efforts are made to encourage participation by women and minorities.

Stipend

Students will receive a stipend comparable with other REU programs. Housing and travel costs are not included.

Application

Please visit <http://www.nano-cemms.uiuc.edu> to learn more about Nano-CEMMS and the REU program. Applications and references must be submitted via the website by **February 10, 2006**.
